IRON YOUTH

Latest news of IRON YOUTH ?

Hail Victory ! There are some news from the IRON YOUTH camp indeed. We'll probably participate with two songs ("the elite" & "every days soldier") in a comp. CD from the German label "PC rec" We're also on terms with another known German label for the next (3rd) full IRON YOUTH CD. In the meantime a couple of our members (Pandelis "Wiking" & John "Totenengel") are no longer with us for personal reasons

How is to play White Power in Hellas ?

We do not feel that we're something "special" or "different". It comes very naturally to us being a WP band. I must add here that we are a National Socialist political band; the term "political" makes the difference. We are not a "gigging" band, were mostly a "studio project " of NS activists

What you say about people who believe that Albanians, Turks re our brothers?

We say to them to go and live with their "brothers", Now ! I have to say here that it is not fair to put "Albanians" and Turks in the same day. While there are good and bad "Albanians", the only good Turk is a dead- and rotten-one. We don't like to put all those liberal-leftist race – traitors in a Turkish jail for a couple of weeks...

Describe one reason who you want to defend our land ?

We would defend our land voluntarily , ONLY under a true national socialist regime ... we don't want to go to war under this democratic tyranny. We prefer to defend our streets, neighborhoods and cities from the alien invasion; this is our top priority and something that it depends from us in a raging degree. First our Race, then our Nation!

How you see the Hellenic white power scene?

The situation is far better than it used to be, let's say, five years ago. We have some very good active bands, like NO SURRENDER, BOILING BLOOD, IRON YOUTH, THREAT, OLIKI KATHARSI and a couple more. The future looks very promising, but only if we are going to work hard towards that way and NEVER forgetting that we belong to a Political organization and we fight for the advancement of the NS ideal. Create music in the name of the cause

Your opinion about NS black metal ?

Very positive. NSBM is here to stay and annihilate all that trendy, pseudo-black metal crap

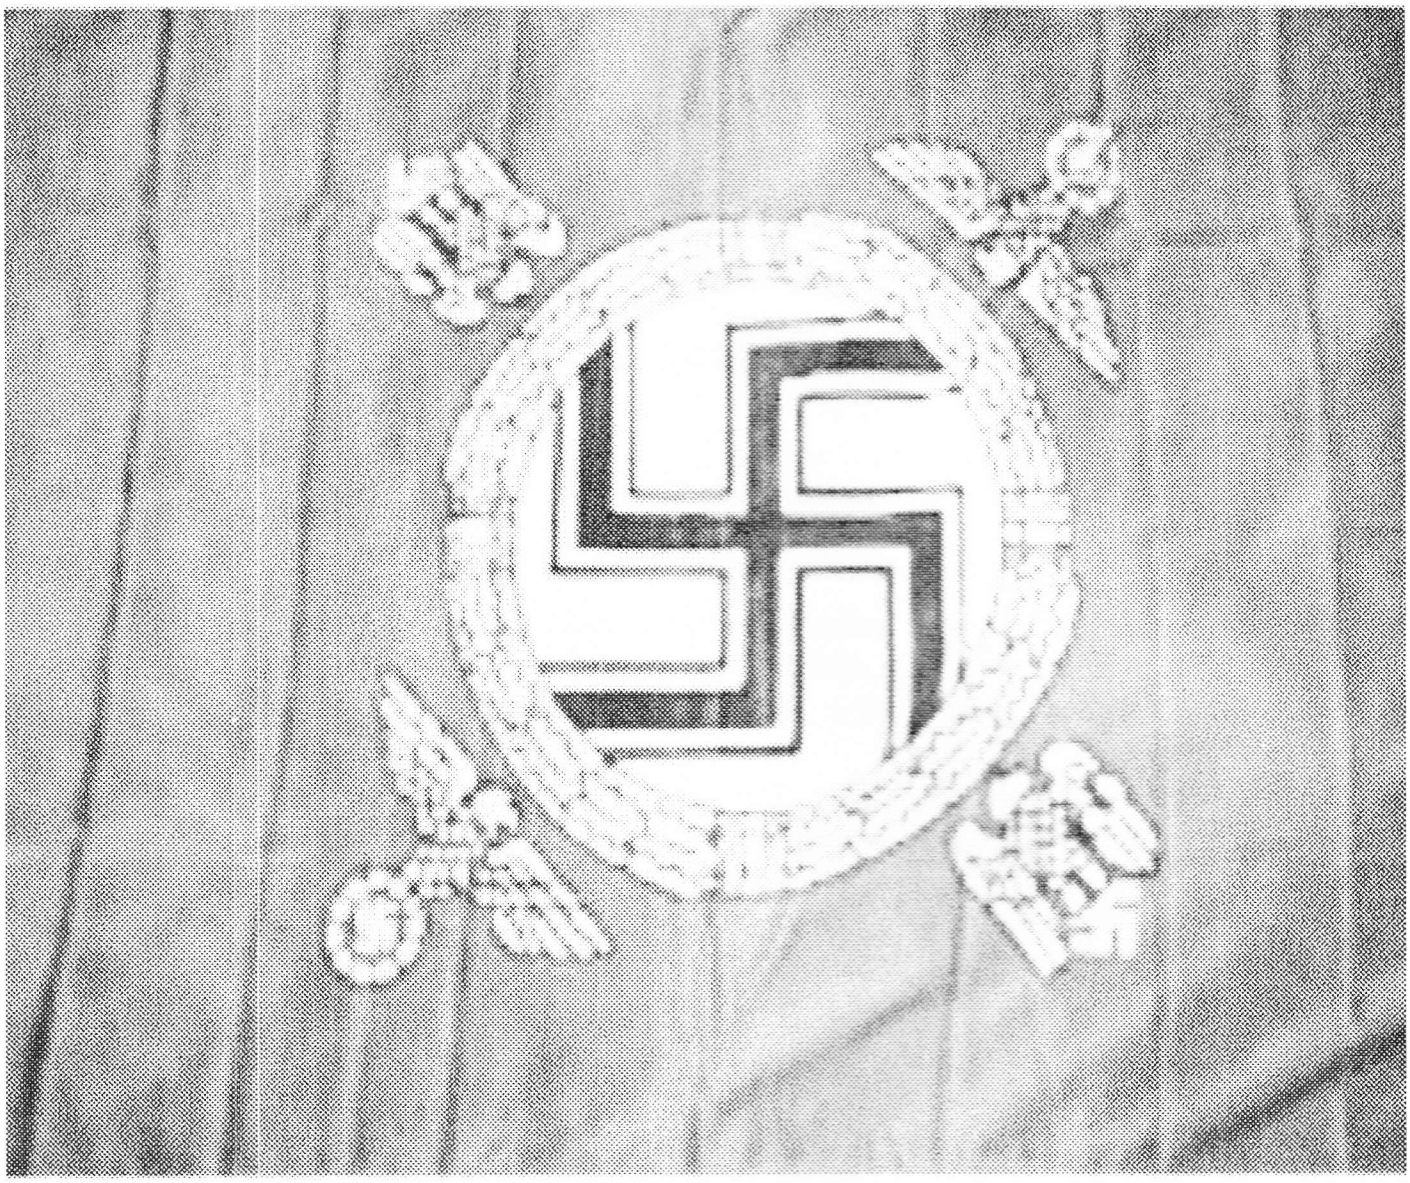
that is offered by the mainstream jewish music corporations. Best band are organized under the banner of pagan front (hail DER STURMER!)

How is the response of your latest work

We really don't know."respect/defend/create" was out in "2001" but it suffers from bad distribution, especially in Europe where the base of the IRON YOUTH comes from. Anyway, that CD go very good reviews from everywhere when it was out back then

Last words ?

Thanks for your interest to our band , friend. Good luck with your new zine. Keep the NS faith and get the edge ! 88! Visit: http://listen.to/IronYouth & www.xrushaugh.org



BRIGADE M

How are you?
Fine, thanx for asking.
Latest news of Brigade M?
We released a 7" EP last December with two new songs. With the first 200 copies came a 24-page booklet about our European Unity & Solidarity Tour. In January a split-CD with Hungarian band 'Fehér Törvény' was released by BHS Services with 5 new songs and a cover of both bands of the classic Skrewdriver song 'The Strong Survive'. We just found a new guitarist, so we're rehearsing again for live-gigs and new songs are being written.
One very important thing we're very busy with at the moment is raising funds for Kolovrat-singer Denis and his family. Denis is in a Czech prison and his very young wife, dughter of 2 , mother and very old grandmother who depend on him are alone in Moscow. We sell a "Freedom for Kolovrat" pin of whih all money will go to the fund for Denis and his family.
What is it like to play White Power in Holland?
I don't think you mean the Skrewdriver classic hahaha. Well, when Brigade M started in 1996 we were the first band to help release a full nationalist CD in The Netherlands (Holland is just the western part of the country where we live), this was the now legendary sampler 'Welkom in Sassem'. When Brigade M did her first show in the beginning of 2001 it was the first nationalist gig in more than 6 years. There are just 2 active bands here, Standrecht (houzee kameraden!) and we. There's some projects and new bands, but none of them play live or have released CD's. Things are pretty hard here to organise a gig. Everything has to be done secretive and only for known comrades. As soon as the commies or other enemies of our people find out the whole thing will be forbidden. It's nothing like the possibilities you have in Hellas.
What's the response to your new album "Trouw aan Rood, Wit, Blauw"?
Well it's been pretty good. The CD was released by Swedish label Sniper Records on 3000 opies which is quit a lot. We were very happy that they wanted to release it since the ecordings were done in January 2002 and since then at least 10 companies offered to release but got cold feet in the end or back out for other reasons. The mix of new songs which ound different than our older stuff, and the 5 live tracks that show people that Brigade M eally enjoys playing live has worked out pretty good.

What are your lyrics about on this album?
"Heilige Oorlog" (Holy War) is about our ongoing battle against the monotheist religions that depict our women as second-class humans, lie about our Europena history and our ancient beliefs. No true nationalist can ever be a christian for it's the belief of desertpeople.
The titletrack, "Trouw aan Rood, Wit, Blauw" (Loyal to Red, White and Blue) is dedicated to our national flag. In the late nineties some school made rules against wearing the national flag on the jackets, this was supposed to bring down racism. The political party we used to belong to back then demonstrated several times against this ridiculous decision and we wrote this song about it.
"Geen Tival in mijn Tefal" (No Tivall in my Tefal) is a song agains the genocide agains the palestinian people. We call upon people to boycott Israëli goods. If you see a product with the last 3 digits '729' on the barcode, don't buy it, it is made in the Zionist entity!!!
"Een voor Allen" (One for All) is a about unity being the only way to win. It's been said before, but it can't be repeated enough.
"Wij zijn de Elite" (We are the Elite) is about opening your eyes to the treason of your fellow kinsmen. There are millions of whites who don't deserve our support because they steal, slander, sell drugs, have bastard-children, are have just plain betrayed our cause. Only the true nationalists will survive!
"Schande voor ons Ras" (Shame to our Race) is yet another song dealing with the scum within our movement. So called white warriors who think getting drunk and beating each other up contributes anything to our fight. We should get rid of them before they destroy the whole movement.
"Eigen Volk Eerst" (Own People First) was the first song we released in 1997, it's here as a live version and it sums up in just 3 words everything we stand for.
"Lui, Laf en Lelijk" (Lazy, Cowardice and Ugly) is probably our most loved song, also out of The Netherlands because of the refrain Antifa HaHaHa. It obviously deals with the Antifa describing them as the cowardice rich kids they are and telling people that in the end the communists will always destroy the other leftish like they did in the Spanish civil-war, post-revolutionary Russia, Cuba and all the other freehavens for anarchists and free-socialists. There's a Josef Broz Stalin in each commieleader and since the commies rule the antifa-movement the simple hangers-on should know when to call us fascists, they're gonna get what's coming to them.
"Voor Volk en Vaderland" (For Folk and Fatherland) is a song about the right of every people to fight and liberate their homeland of invaders.
Furthermore we have two live-covers on the CD; Skrewdrivers "White Power" and a Dutch version of Landsers "Terroristen".

What do you remember of the Hatewave Festival in Trikala 8-8-2003?
It was one of the best organised gigs we ever did. What really made us proud to play in Trikala was the fact that the gig was part of a whole weekend of political discussion and schooling. As we are a national-revolutionary band we urge our listeners to always learn new things from reading and discussing with other comrades or with enemies. Only smart activists can lead an organisation to it's goals. Anyway, the crowd was just great, slamdancing and singing along best as they could to our songs, stagediving, waving flags and as the gig was ended everybody joined in to sing the nationalist anthem. Especially when we played 'Megali Hellas' with Nick of Der Stürmer taking the microphone veryone went mental. We like to thank the organisers once again for this opportunity to help the European movement building a stronger army of revolutionaries.

What's your opinion about the subhumans who want to destroy our lands?
First, we don't think there is one race or people inferior to another. We just say that peoples

are different and should remain different, no itegration nor assimilation but remigration!! If you mean a 'certain' people who control large sectors of the media and the banking world, I say let's fight them together, all endangered peoples of the world. But we should also open our eyes to whites who put misery into the lives of millions of blacks and Asians. The only change they have to survive is to revolt against their corrupt governments who are being paid by foreign masters or flee to the west. So it's in everybody's favour to fight capitalism and build up every country by free peoples.

Future plans?

Loads of them. We're just rehearsing with our new guitarist Rick, welcome comrade, and we plan to hit the stages and studio again in April/Mai. We hope to do more shows in The Netherlands and Flanders for we don't sing in our native tongue for nothing. But we'll be available for special political meetings out of Holland of course. Furthermore we hope that we can contribute to the worldwide struggle against communism and capitalism with Brigade M and as individual national-revolutionaries.

There'll be some 6 or 7 samplers this year with (new) songs by Brigade M and hopefully the DVD of our European Unity & Solidarity Tour 2003 (with large footage of our visit to Hellas) will be released this summer. There'll be a totally new website soon and a lot of new merchandise.

Something for the end?

Thanx for this opportunity to express our ideas to your readers. Keep up the good work and 'Oderint dum Metuant', Let them hate as long as they fear!

WHO IS THE REASON WHO PLAY MUSIC;

All of us we love too much the music and is a way of expression! Off course in our cause is a way to spread our ideals and some facts who we live for real.But another reason is to make more powerful the w.p. music scene here.You know we have not too many bands and supporters but all now going very well like the 2 last gigs.With these live shows we prove that we have serious and loyalty bands and some good crowd!So, i wish more bands start play here and our movement become stonger!Support Hellenic B&H division!

YOUR OPINION ABOUT BANDS LIKE IRON YOUTH,DER STURMER;

Bands with persons who i know them very well.Good comrades who likeus spread our fight.Maybe personal i dont like the too strong sound but others comrades like them. Another thing is to make all the bands true.I mean not only to studio but with gigs.Is more original and good for our movement.

HOW IS TO PLAY WHITE POWER/OI! IN HELLAS;

Very good!We are the first band with traditional oi! sound and with some released and gigs here,so is the reason who we have very good support.Off course we dont forget the comrades from Trikala and their band THREAT.Is another oi! band from 1997 but they haved too many problems and they gonna released they first demo now.Also if all going fine they gonna play with us,Boiling Blood and Total Cleansing in another one B&H Hellas gig at 25/3/'04 :

WHAT YOU REMEMBER FROM LIVE SHOW WITH BRIGADE M AND BOILING BLOOD;

It was a great experience for us!It was also our first gig but all going very well.From this gig i remember the crowd.It was crazy!We haved 160-180 comrades dancing all the night with flags and screams!No problem or fights just fun.We are all 'new' in actions like these and you know is something who never forget!Also i remember the great set of Brigade M they played very good songs and magnificent covers like A.C.A.B,Freheit,See you in Valhalla,The Strong survive and Wickie.All the persons of the band it was good guys and we thank them very much!

YOUR OPINION ABOUT HELLENIC WHITE POWER SCENE;

As i say all start now and must be working all together hand in hand.We have 4 bands who can play live us,B.B.,Total Cleansing,THREAT and soon another one,DEFAMATION who are a new oi!-streetrock band from Thessaloniki!Studio bands is ok if they support our ideals but we need more action bands...you understand.

WHAT IS YOUR FUTURE PLANS;

We just wait our first official released and some others and we are ready for gigs.If we find money and time why not to play abroad?Also 2 fromus they have work with B&H division, like the magazine.
